TECHNICAL SKILLS

Experienced

Tiny to zero learning curve,
However not mastered

JAVA JAVASCRIPT

MYSQL NODE JS

CSS/SASS REACT JS

REST APIS REDUX JS

GIT REACT ROUTER

AGILE EXPRESS JS

Proficient

Small learning curve,
It's been awhile

PYTHON PHP

DJANGO ANGULAR JS

ELASTIC BOOTSTRAP

Familiar

Medium learning curve
Have played with

JENKINS SWIFT 3

FIREBASE SPRING MVC

ANDRIOD MONGODB

TECHNICAL EXPERIENCE

React Nanodegree Mentor / September 2017 - Present
Udacity

Advise students by reviewing their ReactJS course projects. Foster valuable learning opportunities through constructive criticism. Expand my ReactJS expertise and leadership ability.

Software Engineering Intern / May 2017 - Aug 2017
GoDaddy

Restructured an existing NodeJS app to maximize potential customer experience. Architected the foundation of a new storefront. Initiated a side project to renovate customers' user experience when viewing reseller reports.

Software Engineering Intern / Jan 2017 - May 2017
IBM

Automated continuous integration checks in IBM's Rational Team Concert utilizing Java APIs. Accepted ownership of an existing developer dashboard & extended its functionality.

Web Development Team / Feb 2016 - Dec 2016
Iowa State University

Built & deployed a PHP, Angular 2 app that catalogued websites. Analyzed MySQL design & updated a scholarship portal.

EDUCATION
